this book brings the key ideas and concepts of social realism to bear on current debates in the fields of knowledge and curriculum the key concern of this collection is to highlight matters related to knowledge and the influence these dimensions have on the formation of curricula pedagogy identity and equity in educational contexts presenting new perspectives on the place of various types and forms of knowledge in contemporary education this book explores two central questions what type of knowledge is most important to include in a curriculum and what is meant by disciplinary knowledge the chapters use empirical examples to illustrate how the issues play out on a global stage interweaving the social justice concern of equitable access to disciplinary knowledge throughout in particular the authors address the emerging theorisation of issues related to the decolonisation of curricula the recontextualisation of non traditional knowledge into the curriculum and teacher education offering new philosophical and theoretical perspectives this book will be of interest to researchers scholars and students examining the fields of knowledge and curriculum and the sociology of education more broadly

this book provides stimulating insights into the ways in which the adoption of experience logic can revitalize marketing perspectives and stimulate novel approaches to the creation and

delivery of value the first part of the book which has a theoretical focus reviews the international literature and offers conceptual observations on the experiential perspective suggestions are made on how experience logic can act as a new driver for the management of marketing processes in firms within the context of the experience economy in the second part of the book attention turns to the applications of experience logic in different sectors including tourism commerce culture and trade shows company specific examples of benefits of the experiential approach are also explored in case studies on gift box providers marketing of traditional local products and the cosmetics industry the book will be of particular interest for marketing specialists but will additionally be of value for managers in private companies and public bodies who wish to enhance their marketing methods

although termed the little genesis the book of jubilees is significantly engaged with exodus it reworks key exodus narratives develops modules of exodus law and highlights exodus motifs the most fundamental connection to exodus is the grounding of the two narrational structures of jubilees in the scenario of moses receiving a revelation on mt sinai in the frame an anonymous narrator develops the mt sinai setting of the work in the body an angel employs that setting as the present time pivot for a retrospect that moves backward and forward in time focusing on the intersection of structure and content the study explores the relationship between the retrospective design of the angel narration and the exegesis the approach is a literary one that treats jubilees as a unitary text that may reflect the work of a single author or of a final editor the analysis draws particular attention to manipulations of temporal and textual perspective that transform exodus narratives facilitate the hermeneutical elaborations of exodus law and effect cohesion in the revelation that is the book of jubilees halpern amaru s study makes a significant contribution to our understanding of biblical interpretation in second temple judaism for example the reading of the jubilees narrative of the exodus as a revelation of how god uses his heavenly forces i e mastema and his demons as well as the angels of the presence on behalf of israel has implications for the understanding of strategies that temper dualism in second temple judaism

nietzsche s controversial will to power thesis is convincingly rehabilitated in this compelling book tsarina doyle presents a fresh interpretation of his account of nature and value which sees him defy the dominant conception of nature in the enlightenment and overturn hume s distinction between facts and values doyle argues that nietzsche challenges hume indirectly through critical engagement with kant s idealism and that in so doing and despite some wrong turns he establishes the possibility of objective value in response to nihilism and the causal efficacy of consciousness as a necessary condition of human autonomy her book will be important for scholars of nietzsche s metaphysics and of the history of philosophy and science more generally
